

## PTFE-BAND/GOLDEXBAND

### PTFE thread sealing tape for plastic and metal threads

- Suitable for any sanitary and heating circuits for cold and warm water
- DVGW certified (DIN EN 751-3)

Can be used at temperatures between: -60°C and 260°C Max pressure: 20 bars  
FRp; DN ≤ 10 / GRp; 10 ≤ DN ≤ 50

- Removable
- Easy and quick to use
- Non-flammable
- No expiry
- Fungal-resistant
- Does not bulge

### PTFE-Goldex Tape for plastic and metal threads

- DVGW certified (DIN EN 751-3)
- BAM certified
- FDA compliant

Use a maximum temperature of: 260°C Max pressure: 30 bars  
For oxygen (liquid and gas): 60°C max Max pressure: 40 bars

Article number	Article	PU
24010	FRp (density 60 g/m <sup>2</sup> )	250
24011	GRp (density 100 g/m <sup>2</sup> )	250
33294	GoldexBand (density 142 g/m <sup>2</sup> )	10

For more PTFE tapes see p. 32.
