Data required for configuration:

Object

New building Existing building (built in)
 Storage tank required Existing storage tank (capacity l,)

Collector

2plus® 4plus®

Distance collectors - storage tank (length one way m)

Mounting (not all mounting types suitable for all collectors)

On-roof In-roof Façade Flat roof
 Vertical Horizontal Adjacent One above the other

Useable mounting area (width m x height m)

Roof specification (for on-roof and in-roof systems)

Standard roof tiles Slate Plain tiles Other

Roof pitch °

Azimuth of collectors (deviation from south °) (Example: +45° = southwest, -45° = southeast)

Type of application

DHW heating (number of persons in household:)
 Heating support (living space m² and number of persons in household

Data additionally required for simulation:

Object

Town and / or post code:
 For DHW heating: annual hot water consumption (..... kWh)
 For heating support: annual heating consumption (..... kWh)

Backup heating

Type of heat generator (e.g. gas- or oil-fired condensing boiler) and output (..... , kW):
 Panel heating Radiators
