

TIEMME RACCORDERIE S.P.A., leader in production and sales of fittings systems, manifolds, pipes, valves and taps for hot and cold water, gas and solar installations, in conformity with the regulations in force

DECLARES

under its own responsibility, that the following products:

COMPRESSION FITTINGS FOR MULTILAYER PIPES - SERIES 1600

are designed and manufactured according the sound engineering practices:

- They conform to our internal manufacturing and control procedures according the standard EN ISO 9001:2008.
- They are designed and manufactured in accordance to the standard EN 1254-3 (Copper and copper alloys - Plumbing fittings - Part 3: Fittings with compression ends for use with plastics pipes).
- The brass alloy CW617N employed in forged bodies conforms to the standard EN 12165.
- The brass alloy CW617N employed in parts wrought from bar conforms to the standard EN 12164.
- The aforementioned brass alloys conform to the 4MS Common Composition List and therefore are suitable for use with drinking water.
- They are suitable for use with multilayer pipes conforming the standard ISO 21003-2 (Multilayer piping systems for hot and cold water installations inside buildings - Part 2: Pipes).
- They comply with the information illustrated in the respective technical sheets.

DECLINES

any liability for damages to persons or objects resulting from tampering or from incorrect or unsuitable use installation of the abovementioned products.

The Technical Director
Pierfausta Stefana
