Pure+ Fresh-water storage tank 300 litres with 2 smooth pipe heat exchangers

Fresh-water storage tank for highest demands on drinking water hygiene and energy efficiency.

The structure of the storage tank is fundamentally different from usual large-volume domestic hot-water tanks. A built-in corrugated stainless steel pipe separates the drinking water from the heating water, while serving as a powerful heat exchanger at the same time. Thus, the advantages of a buffer tank are combined with those of a continuous flow water heater. The heating water serves as actual heat storage while the drinking water flows through the corrugated stainless steel pipe only if required and, thus, a legionella-safe domestic water heating is ensured. You do not need a protection programme against legionella in the controller. At all times, the consumer is provided with hygienically clean, fresh water at the desired temperature.

Due to the two additional smooth-pipe heat exchangers, more heat generators can be integrated at any time and their energy can be fed into the fresh-water storage tank.

Data pursuant to EU regulation 812/2013

| Name of supplier's trade marks: | OEG GmbH |
|---------------------------------------|--|
| Model identification of the supplier: | 516008297 - Fresh-water storage tank 300 litres with 2 smooth pipe heat exchangers |
| Energy efficiency class of the model: | A+ |
| Heat retaininglosses in watts: | 36 |
| Storage tank volume in litres: | 294 |

General

| OEG Nr.: | 516008297 |
|--|-------------------------|
| Rated volume according to EN 12897: | 300 |
| Colour: | red |
| Insulation according to DIN 4102-1 Fire Protection Class B2: | solid foamed insulation |
| Weight [kg]: | 110 |
| Total height including insulation [mm]: | 1750 |
| Diameter with insulation [mm]: | 610 |
| Tilt height [mm]: | 1830 |

Energy

| Energy efficiency class according to EU regulation no. 812/2013: | A+ |
|--|-------|
| Heat retaining loss according to EN 12897 [W]: | 36 |
| Heat losses in stand-by mode according to DIN 12897 [kW/h / 24 h]: | 0,864 |
| Output capacity (45°C) [I]: | 175 |
| Performance indicator NL following DIN 4708: | 1,60 |
