SECTION 4: First aid measures

4.1 Description of first aid measures

General advice If symptoms persist, call a physician.

Take off all contaminated clothing immediately.

Remove/Take off immediately all contaminated clothing.

If inhaled IF INHALED: Remove victim to fresh air and keep at rest in a position

comfortable for breathing.

If unconscious place in recovery position and seek medical advice.

In case of skin contact

Use mechanical handling equipment.

IF ON SKIN: Gently wash with plenty of soap and water.

In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

If swallowed, seek medical advice immediately and show this contain-

er or label.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media Carbon dioxide (CO2)

Dry powder

Foam

Water spray jet

Extinguishing media which must

High volume water jet

not be used for safety reasons

5.2 Special hazards arising from the substance or mixture

Special exposure hazards arising from the substance or prepara-

tion itself, its combustion prod-

ucts, or released gases

Container may rupture on heating. Heating or fire can release toxic gas. May form explosive mixtures in air.

5.3 Advice for firefighters

Special protective equipment for

firefighting

In the event of fire, wear self-contained breathing apparatus. In the event of fire and/or explosion do not breathe fumes.

Additional information on fire-

fighting

Fire residues and contaminated fire extinguishing water must be dis-

posed of in accordance with local regulations.

Keep containers and surroundings cool with water spray. Container

may rupture on heating.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions Ensure adequate ventilation, especially in confined areas.

Keep away from sources of ignition – No smoking. Keep people away from and upwind of spill/leak.

6.2 Environmental precautions

Environmental precautions The product should not be allowed to enter drains, water courses or

the soil.

Commercial Product Name: fischer PU 2/402 fast bonding foam B2, fis-

cher PU 2/403 fixing foam B2

Prevent spreading over a wide area (e.g. by containment or oil barri-

ers).

6.3 Methods and material for containment and cleaning up

Methods for cleaning up Soak up with inert absorbent material (e.g. sand, silica gel, acid

binder, universal binder, sawdust).

Allow to solidify, use mechanical handling equipment.

Ensure adequate ventilation. Do not flush with water.

6.4 Reference to other sections

Reference to other sections See chapter 8/13

6.5 Additional information

Other information Treat recovered material as described in the section "Disposal consid-

erations".

Dispose of in accordance with local regulations.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling Handle and open container with care.

> Provide sufficient air exchange and/or exhaust in work rooms. Vapours are heavier than air and may spread along floors.

BEWARE: Aerosol is pressurized. Keep away from direct sun exposure and temperatures over 50°C. Do not open by force or throw into fire

even after use. Do not spray on flames or red-hot objects.

Advice on protection against fire

and explosion

Pressurized container: Protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use.

Do not spray on a naked flame or any other incandescent material.

Keep away from sources of ignition - No smoking.

In use, may form flammable/explosive vapour-air mixture. Take measures to prevent the build up of electrostatic charge.

7.2 Conditions for safe storage, including any incompatibilities

Storage space and container re-

quirements

Keep containers tightly closed in a cool, well-ventilated place.

Container may rupture on heating.

Store in accordance with local regulations.

German storage class LGK 2B (TRGS 510)

7.3 Specific end use(s)

Remarks: Replace when worn.

Reference substance: Request information on glove permeation properties from the glove

> supplier.. Be aware that in daily use the durability of a chemical resistant protective glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside in-

fluences (e.g. temperature).

private users (short contact):

Suitable material: attached disposable gloves

Use gloves once only. Remarks:

Eye protection Tightly fitting safety goggles

Skin and body protection Wear suitable protective equipment.

Choose body protection according to the amount and concentration Note:

of the dangerous substance at the work place.

General protective and hygiene

measures

Smoking, eating and drinking should be prohibited in the application

area.

Avoid contact with skin, eyes and clothing. Take off all contaminated clothing immediately.

Do not breathe vapors, mist or gas.

Wash hands before breaks and at the end of workday. Keep away from food, drink and animal feedingstuffs. Use protective skin cream before handling the product.
