

## Product Information

### 641PF

#### Product structure

|                           |                                                                                                                                                 |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Backing</b>            | Flexible cotton cloth                                                                                                                           |
| <b>Flexibility</b>        | <div> <div>low</div> <div>1</div> <div>5</div> <div>11</div> <div>high</div> </div>                                                             |
| <b>Grain Type</b>         | Aluminium oxide                                                                                                                                 |
| <b>Coating</b>            | Closed                                                                                                                                          |
| <b>Top Coat</b>           | <input type="checkbox"/> stearate <input type="checkbox"/> special top coat                                                                     |
| <b>Manufactured Width</b> | <input type="checkbox"/> 1400 mm <input type="checkbox"/> 1430 mm <input checked="" type="checkbox"/> 1650 mm <input type="checkbox"/> others   |
| <b>Form</b>               |                                                                                                                                                 |
| <b>Suitable for</b>       | <input checked="" type="checkbox"/> hand grinding <input type="checkbox"/> hand held machine grinding <input type="checkbox"/> machine grinding |

#### Grits

Bei Keramik, Zirkon, # und \* keine P-Körnung

|                                           |                                           |                                           |                                           |                                           |                                           |                                          |                                          |                                          |                                           |                                           |                                           |                                           |                                           |                                           |

#### Materials

|           |                   |                 |       |          |               |       |      |          |             |
|-----------|-------------------|-----------------|-------|----------|---------------|-------|------|----------|-------------|
| Aluminium | Non-ferrous metal | Stainless steel | Steel | Titanium | Paint lacquer | Glass | Wood | Plastics | Stone/china |
|-----------|-------------------|-----------------|-------|----------|---------------|-------|------|----------|-------------|

#### Application examples

General off-hand grinding - Metal working

Off-hand grinding - Bodywork

General off-hand sanding - Wood working

- Very good tearing properties in longitudinal direction and cross direction due to specific mesh structure
- Very good adaptability to moulded workpieces due to high flexible cotton backing
- Multi purpose use at metal- and woodworking applications caused by quality aluminium oxide grain
