

SANITARY AND HEATING EQUIPMENT

THREAD SEALINGS

PTFE-BAND/GOLDEXBAND

PTFE thread sealing tape for plastic and metal threads

- Suitable for any sanitary and heating circuits for cold and warm water
- DVGW certified (DIN EN 751-3)

Can be used at temperatures between: -40°C and 260°C Max pressure: 20 bars
FRp: DN ≤ 10 / ORp: 10 ≤ DN ≤ 50

PTFE-Goldex Tape for plastic and metal threads

- DVGW certified (DIN EN 751-3)
- BAM certified
- FDA compliant

Use a maximum temperature of: 260°C
For oxygen (liquid and gas): 40°C max

Max pressure: 20 bars
Max pressure: 40 bars

- Removable
- Easy and quick to use
- Non-flammable
- No expiry
- Fungal-resistant
- Does not bulge

Article number	Article	PTJ
24010	FRp (density 40 g/m ³)	300
34011	GRp (density 100 g/m ³)	250
33294	GoldexBand (density 142 g/m ³)	10

For more PTFE tapes see p. 32.
