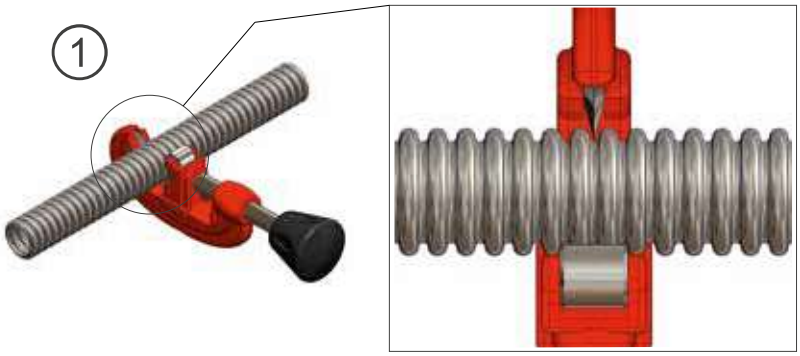
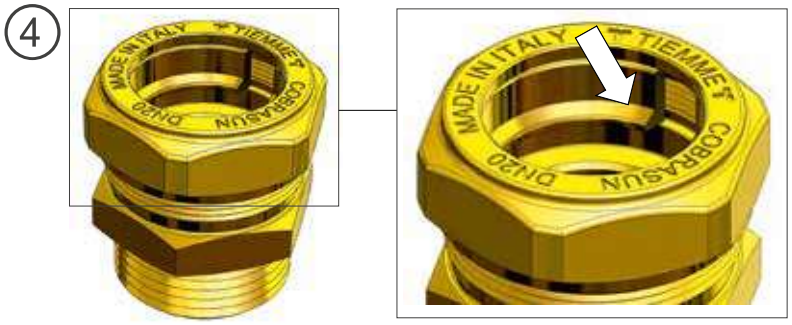
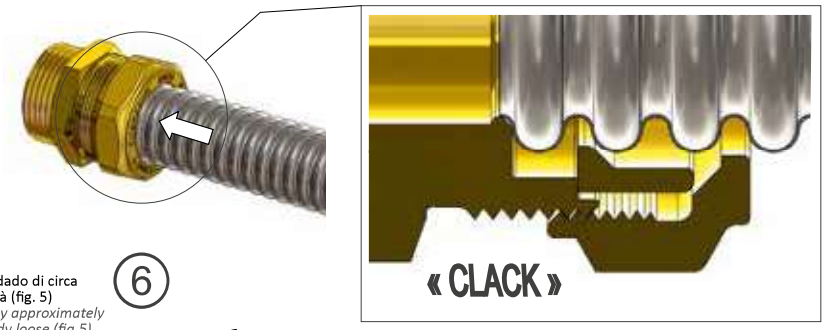
Posizionare la lama nella scanalatura perpendicolarmente al tubo.
Place the blade in the groove perpendicularly to the pipe.

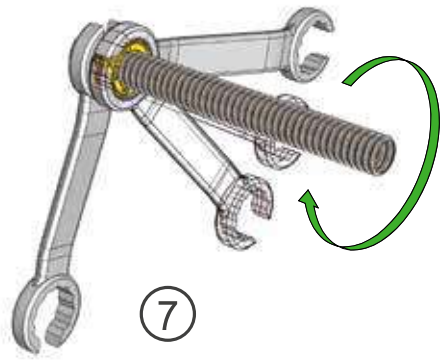


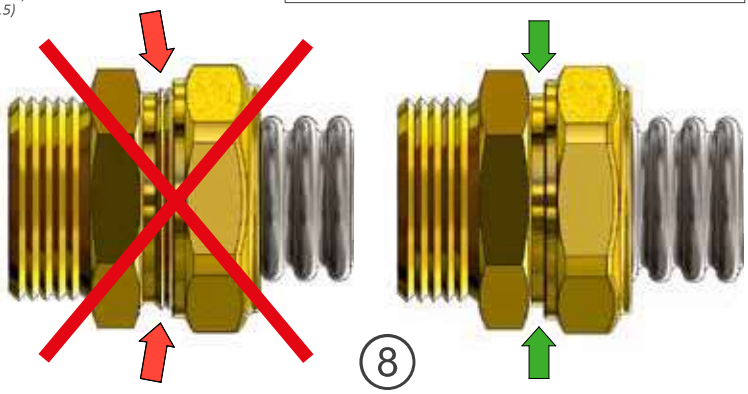
Il taglio deve essere netto, senza bave
The cut must be clean and without burrs

Non smontare il raccordo: qualora succedesse accidentalmente, il piede dell’anello interno va in appoggio sul corpo raccordo
Do not disassemble the fitting: should this accidentally occur, the foot of the inner ring must be rested on the fitting body



Spingere il tubo nel raccordo fino ad avvertire lo scatto “CLACK” (fig. 6)
Push the pipe into the fitting until the “CLACK” sounds (fig.6)






Allentare manualmente il dado di circa 1/2 giro, salvo non lo sia già (fig. 5)
Manually loosen the bolt by approximately 1/2 rev, unless is not already loose (fig.5)
