

PLANETA – PAH aluminium ratchet lever hoist

The new PLANETA – PAH aluminium ratchet lever hoist is an essential tool in industrial and service applications thanks to its very small and light design.

A closed, well-designed aluminium die-cast housing protects the inner components against dirt. Equipped with two robust hook clips, the PAH meets all safety requirements and guarantees safe work.

The new robust chain end piece provides additional safety because the chain cannot be pulled through the device in this way.

A release lever enables the chain to be pulled through quickly when not under load.

- Usable at ambient temperatures from -20°C to $+60^{\circ}\text{C}$
- Tempered and galvanized chain according to DIN EN 818-7-T
- Hand lever with rubber handle (only for 250 kg/500 kg load bearing capacity)
- The standard lift is 1.5 m

Optional: With RFID chip for digital equipment testing.

TYPE	PAH ...	250	500	800	1600	3200
